

Effective Supplements Through Science

LUCK IS OFTEN GOOD PLANNING

Royal Morn has been on HEALTHY HORSE since he was two, he has not been sick a day.

Last December a bad virus went through Fraser Downs, all my horses stayed healthy and I was fortunate to win all three finals of the Sales Stakes. I am convinced HEALTHY HORSE made a difference in my stable being able to fight off that virus.

My two year old colt Primary Purpose ended his year 7 for 7. When I got him his manure was smelly and loose and he wasn't digesting his foods properly. I put him on BIOTIC 8 and within three weeks his manure was firm and less offensive. He looked great and started to hold some weight.

Omega Alpha products are part of my training program for all my horses.
